

# HORTICULTURE

---

## Certificate in Horticulture

# Turn your passion for gardening into a promising career.

The Certificate in Horticulture is not just about ticking you off against a list of basic competencies. This online course will teach you all the foundations and sound horticultural skills to turn your passion for gardening into a promising career.

You will gain firm understanding of plant nutrition, water management, pests and diseases, landscaping, arboriculture and much more. Upon completion, you can be confident to enter the Horticulture industry, seek employment in various organisations who maintain large open spaces (e.g., parks, sporting fields, playgrounds...) or even start your own business.

### Did you know?

The Horticulture sector in Australia has experienced seven years of consecutive growth, reaching a total value of \$14.4 billion. The industry is in strong operation in every state and territory.

# ABOUT US

Courses4me is a new age online education company, with decades of experience in both the public and private education space. Our founders have a combined 27 years' experience in education and training and have come together to provide quality and affordable education for everyone that is looking to upskill.

Our network of partners and education providers now spreads across Australia, New Zealand and the UK. We offer hundreds of courses in a vast array of industries. From an introductory certificate to advanced courses and bespoke programs, students will receive the recognition, skills and industry insights to hit the ground running with confidence.

## Endorsement

Courses4me has established a high level of respect in academic circles within a range of disciplines in Australia and beyond.

The courses are fully endorsed by The International Approval and Registration Centre (IARC) – a dynamic, non-profit association with head quarter and administration centre in Queensland, Australia.

*Quality for Excellence in Education*
